

Cookie policy

What are cookies?

Cookies are small text files. When you visit a website, these are sent to your computer and stored on your computer or device's hard drive, without causing any damage, to facilitate the use of the website. Cookies are predominantly used to store lasting or temporary information, such as the language preference of the visitor or user, or their login details. Other cookies collect statistics on a website's users or they ensure that certain graphic elements are correctly displayed and all functionalities of the website work properly.

What does Aspiravi nv use cookies for?

Aspiravi nv will only have access to the information contained in the cookie text file and won't access or search for other information on your computer or device.

Aspiravi nv uses website cookies to:

- Remember previous choices made by the visitor of the Aspiravi website;
- Analyse and improve the Aspiravi website;
- Display information that is relevant to the user or visitor of the Aspiravi website.

How do cookies work?

All cookies contain a unique code which allows us to recognise your browser, both during your visit (session cookies) and on subsequent visits (permanent cookies). Permanent cookies are stored indefinitely on your hard drive, although you can always opt to decline the installation of cookies, and disable or delete previously installed cookies.

How to manage your cookie preferences?

All the main internet browsers allow users to check their downloaded cookies. You can easily manage or delete these cookies by changing your browser settings. However, this may result in certain elements of the Aspiravi website not being displayed correctly or certain functionalities of the Aspiravi website being limited.

You can also set up the browser to send you a notification each time you receive a cookie so you can decide for yourself which cookies you would like to accept or not. Find out more info on the support pages of your browser:
